### FINANCE AND COMMERCE

# STEEL COMMON

Many Other Issues Advance, Though SEABOARD AIR LINE Gains Are Less Erratic Than They Have Been.

New York, Aug. 9.—Publication of an optimistic crop report by the government today imparted strength to the stock market which was mirrored in gains of Board of Directors in from one to six points, the maximum increases being in the specialties. Price fluctuations in the war stocks were less erratic and the leaders of steel common in the afternoon dealings increased confidence in the probable stability of

Initial prices displayed fractional gains for this movement, although the other copper shares were heavy, owing to a further decline in the prices of copper

#### Big Gains in Late Trading.

Although most issues showed fractional gains, the upward movement was not pronounced until the afternoon dealings, when Steel common assumed leadership and rose to the highest price since 1912, when it sold at 80 3-4. Today it touched 74 3-4. In the last fifteen minutes profittaking caused a fractional recession from best, but final prices were within

The crop report shows that the combined indicated yield of spring and winter wheat, corn, oats, barley, rye, flax, and potatoes amounted to 6,005,000. fractions of the best.

#### NEW YORK CURB.

New York, Aug. 2—War stocks were again the center of interest of today's trading on the carb market, but the dealings were not as large in volume as those of the sessions of the majority of issues was more orderly. Marconi Wireless of America was perhaps the notal active feature of the specialities and the renewed interest in these shares, for which a price of \$30 a share has been predicted, forced an advance today of a fraction over the previous close, but the freer offering of stock on the advance caused a setback.

Canadian Car and Foundry was quieter and about steady. A steady tone was maintained in Electric Boat shares. International Nickel was actively traded in on the curb teday at from 1.7 to 183. Motor shares were more active, but for the most part easiler, in some instances new low price levels being reached. This was especially true of Stewart Mining, which was the active feature of the group, and which sold down to the lowest level of the present movement. Kennecott Copper was active and irremine. Bonds were extremely quiet and only about steady.

#### NEW YORK MONEY.

New York, Aug. 2.—Call money opened at 2 per ent; high, 2 per cent; low, 1% per cent; renewalls, per cent; last, 2 per cent; ruling rate, 2 per

Time money market continues to remain inactive What little interest displayed is among the in dustrial loans. Practically the only railroad stock being used to time loans are put in when the banks decline to accept any more industrial loans. The banks have conreded the point of accepting mixed loans of half industrials and half rails in place of the accustomed 65 per cent rails and 35 per cent industrials. Straight rail loans are becoming rare. This will be reversed when the activity on the exchange reverts to the trading in the railroad

Rates are 2% per cent for sixty days, 254a3 per cent for ninety days, 3 per cent for four months. S4a314 per cent for five and six months, and s per cent for twelve months. Quotable rates were unchanged at 3 per cent to 34

#### Capital ....\$1,000,000 Surplus ....\$2,000,000 Strong and

Conservative

Resources of over fourteen millions of dollars, combined with a policy founded on the soundest banking laws, enable this bank to give protection of the highest character.

Tevery facility to insure promptness and accuracy in all banking transactions. Accounts of individuals, firms, and corporations invited. LETTERS OF CREDIT AND FOREIGN DRAFTS ISSUED.

### TRACTION SELLS LOWER.

Lanston Brings Seventy-Dividend May Come Next Month,

AT HIGH POINT

Capital Traction stock was about a point off at yesterday's session of the Washington Stock Exchange, 100 shares selling at 88 1-2. Washington Railway and Electric held at 88 3-4 bid, but with no offerings under 92. Minor quantities of the preferred was traded at 82 3-4 and 83.

Seventy-three shares of Lanston were sold at 70. The closing was 69 1-2 bid and 75 asked. It is believed a small dividend will be paid next month on Lanston stock. Potomac Consolidated 5's held firm at 100 1-2. Potomac first mortage 5's were strong at 106.

## TAKES OVER C., A. & W.

Board of Directors in Baltimore.

The Seaboard Air Line Railway yester day absorbed the Carolina, Atlantic and Western Railway, a line 416 miles in length, the action being taken at an im-portant meeting of the board of directors throughout the list. Crucible's advance of 5 and one-half points and Bethlehem's main of ten points attracting attention.

Tennessee Copper also made a new high Seaboard Air Line Railway Company. The financial program presented by Davies Warfield, chairman of the boar and unanimously adopted, includes the sale and exchange by him of \$22.893.000 in bonds, the simplification of the financial structure of the road, and the making of a new mortgage authorizing an issue of \$300,000,000 in bonds.

The Carolina Atlantic and Western

t 330,000,000 in bonds.

The Carolina, Atlantic and Western Rallway is a recent consolidation of the North and South Carolina, Charleston Northern, and South Carolina Western railroads. The absorption will give the Seaboard Air Line Railway a low grade line from Hamlet, N. C., to Savannah, Ga. The railway will be enabled to reach Georgetown, S. C., Charleston, S. C., and Savannah, Ga., and will tap a rich and fertile territory, highly productive in cotton and tobacco.

excess of the 1914 harvest.

Equipment company stocks were in demand throughout the session. Pressed Steel Car was the leader, closing with a net advance for the day of six and one-eighth points. American Car and Foundry also was higher, as was Baldwin, which gained about four points. line running via Columbia. Each one is self-supporting in its own territory and they will obviate the necessity of double-

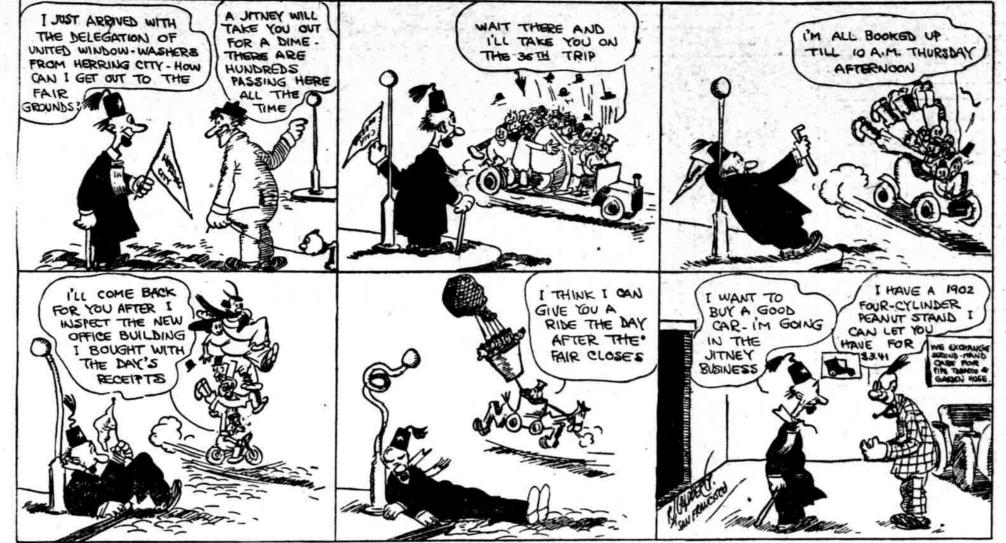

line from Charleston to Savannah and for various other purposes.

COTTON MARKETS.

New York, Aug. 2.—Cotton cased today on selling, due to heavy rains in Oklahoma, where as much as fire inches of precipitation was reported in places. While the moisture was not particularly needed in that State it encouraged hopes that the drought in Texas would soon be broken. There appeared to be a demand for October on a scale down from 9:40. The tone finally was steady, with prices 9 to 12 points lower. General business was not active. The spit article was quiet and unchanged at 245. There were no sales.

Traders supported the market, but the buying was not aggressive. Liverpool was a light buyer here, but the demand from that source was arrives in evidence than on the advance of last week. Some cotton brokers in New England reported more disposition out the part of manufacturers to buy the old crop, but there was no increase in actual sales.

There was a good demand for the spot article at SALES.

Bose Will Sell Cotton. Robert F. Rose, who recently resigned as foreign trade adviser of the State Department, has become market representative of Southern cotton interests, it became known today. He will not only try to find a market for their drops, but will work to improve shipping conditions by obtaining the removal of certain blockade restrictions.
